

Deliverables

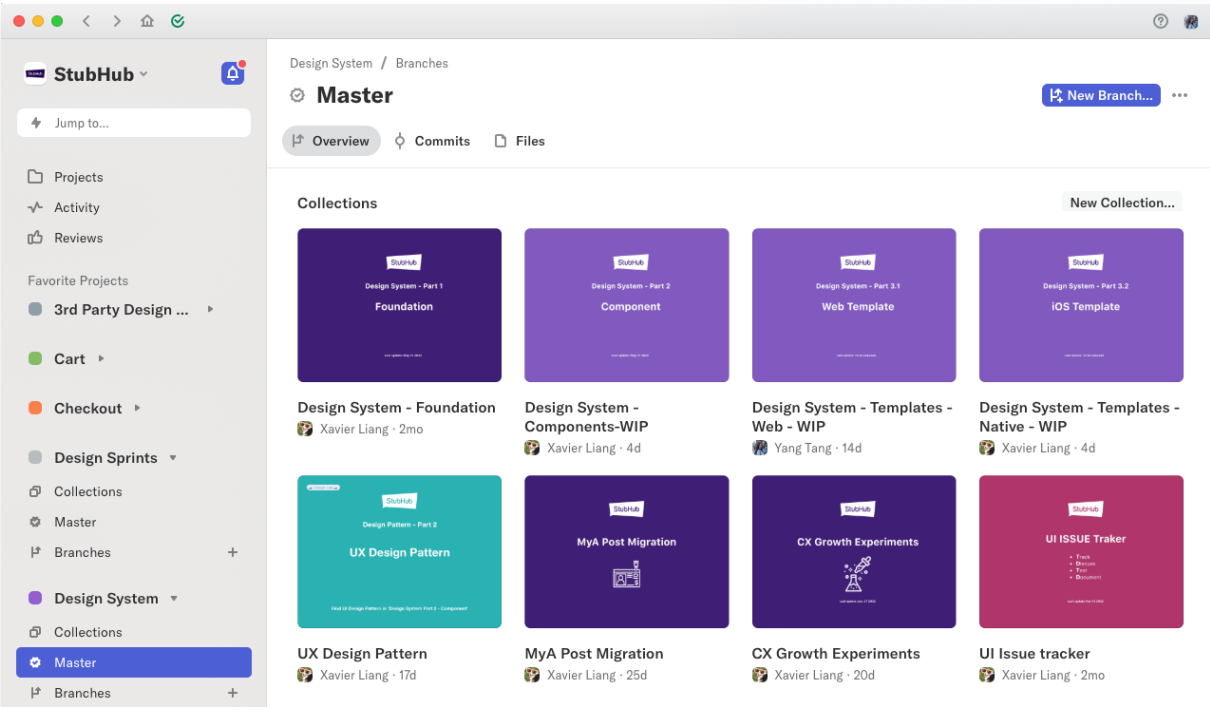

Design System Library (Sketch Kits)

Sketch Library is the major components library used by every single designer across StubHub during their daily work. Components in all platforms (including desktop, tablet, mobile, iOS and Andriod) and both light and dark mode provided.

Design System Showroom

Showroom is used for sharing design guidelines/decisions/updates, gathering feedback for further iteration before publishing to Zeroheight. FED can direct inspect the specs of components in abstract.

[Foundation, Components, Templates (Desktop, Mobile, iOS, Android)]
