

# ***Hills for MVP*** *(Goals)*

Hill 01.

A **Quality Engineer** can continually manage, show value, and improve quality inspection effectiveness **without data scientist**.

Hill 02.

A **Quality Engineer** can take actions to incrementally improve the analytic outputs and manage retraining in minutes **on their own**.

Hill 03.

An **IT person** can deploy, configure, and manage the PQI solution for the Quality Engineer **within a day**.
